About US

Incorporated in 2016 (DUNS: 080173515 and CAGE: 7PJ91) in the state of Texas, **Onward Fabrications & Industrial Services, LLC (OFAIS)** is a small business enterprise that provides structural engineering, custom fabrication and welding services to commercial, industrial and government organizations.

At OFAIS, we have the excellent know-how to execute structural designs, translate structural designs into shop drawings, handle intricate welding jobs, and undertake construction projects. Because we know that the needs of our clients can differ, we offer custom designs and fabrication to meet such needs.

OFAIS engineers keep up with current trends in industrial development and use state-of-the-art knowledge to better serve our customers. Our ecosystem is a learning one and that affords us the dynamism to handle complexities, no matter what they are, all aimed at producing deliverables that exceed the satisfaction of our clients.

About Our Team

Our team of professionals analyze research, design and cost effectively implement solutions in the areas of steel fabrication, welding and welding related services.

Our steel fabrication services focus on integrated solution and designs, incorporating industry best practices, safety and environmental assessments.

Our welding services focus on robust, safe and personalised solutions for each customers need. Guided by industry codes and standards, we ensure that each weld bead laid down is done with commitment to excellence.

When it comes to serving your fabrication needs, we are dynamic and flexible with the ability.

In all, our focus is keenly on extremely satisfying our clients. Consequently, the retention rate of above 99% rate - who are all repeat customers - is what we beat our chest about and we strive continuously to maintain this rapport.

We maintain a culture of openness, trust, honesty and transparency in all our project contracts while ensuring that we maintain the optimum standards in all we do.
